## PROJECTS

### Netflix Clone using React JS
Used language : HTML, SCSS, JavaScript, React JS

It is a project which is almost similar to Netflix. I have used the API key of themoviedb.org website and used it to build the User Interface.

### Weather Web App
Used language- HTML, CSS & Vanilla JS

Created a weather app that shows the real time data, by fetching the data from openweathermap.org with the help of an unique API key created on that website.

### Airline Reservation System
Used language : JavaScript, Bootstrap CSS, Advance java, mySQL

This is online ticket booking website, where user can track all activities like flight schedule, ticket booking, cancellation in their account.
